## **PROJECTS**

### **Apex Commerce – Digitalising storefronts**

- This application is for aiding businesses to make a mark in the e-commerce market. Developing the admin functionality for this application, primarily using cutting edge technologies like SvelteKit, Vite, Jest & Cypress.

### **Ellipsis – Headless Cart SDK**

- This SDK is for adding cart functionality for e-commerce storefronts. My primary contributions include improvement of existing features, increasing code test coverage to 90+% and maintenance.

### **Saut – Curriculum management of differently abled children**

- This is a web application for managing education curriculum of differently abled kids. It has been build to support English and Arabic languages.

### **Storefronts – Mivi, Vibrant Living, Old School**

- These are live e-commerce storefronts of respective clients. Product catalog updation, frontend enhancements, client request implmentations are my responsibilities

### **EtherWatch – Marketplace for satellite data**

- Building a web application with React as frontend and Django backend sourcing in data from partner APIs. This application will serve as a market place for satellite data for monitoring various aspects such as weather and asset conditions.

### **eNetra – Smart energy management**

- Developed full stack application with Django as backend and React frontend implementing Redux pattern

### **eFortify – Covid Tracker application**

- Was the key resource in developing the solution as a whole, majorly contributing in developing React-Native based mobile application

### **Deep Tech Makers**

- Trained 200+ employees on IoT technology as part of company wide innovation upskilling

### **Vetturino – Blackbox for automobiles**

- Been part of the project since inception and contributed at various fronts such as project architecture, dashboard designing and product development

## **EDUCATION**

### **B.Tech (Mechanical Engineering)**

**Geetanjali College of Engineering and Technology**

06/2013 – 06/2017

Hyderabad, India

#### **Projects**

- ARI – Air energy Replenishing Instrument
- Study of LFH bogies
- Technical seminar on Polymagnets

## **ACADEMIC ACHIEVEMENTS**

- Graduated in distinction without a single backlog ever!
- Worked as an event coordinator at BHASWARA 2k14.
- Winner of an event conducted by ALFAMATICA 2k15.
- Runner in paper presentation conducted by BHASWARA 2k15.
